## **DETAILED ACTION**

### ***Oath/Declaration***

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration believes the named inventor or inventors to be the original and first inventor or inventors of the subject matter which is claimed and for which a patent is sought.

It does not state that the person making the oath or declaration has reviewed and understands the contents of the specification, including the claims, as amended by any amendment specifically referred to in the oath or declaration.

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

The following is an examiner's statement of reasons for allowance:

The limitation "portions of said thin polymer sheet are located between said pair of conditioning boards" of claim 4, "thin polymer sheet is folded over itself to form back-to-back face portion and further wherein free end portions of said thin polymer sheets are folded so as to extend away from said face portions" of claims 5, 7, "inserting a thin polymer film at least between adjacent ones of said plural circuit boards" of claim 14 in combination with other limitations present is neither taught nor disclosed in the prior art of record.
